

FP Mail Center Furniture

FP Furniture solutions give you the tools for maximum flexibility and efficiency for your mail and communications operations.

FP provides durable, modular mail and document furniture solutions that are engineered for today's ever-changing work environment, making it possible to easily convert any surface into a productive document and mail station. Our furniture is manufactured with the highest quality precision molded components, making it incredibly durable. Compact and affordable, FP furniture is guaranteed to provide day-to-day performance ordinary steel equipment simply can't handle.

The difference is in the details. FP furniture is ergonomically designed to reduce eyestrain and offer easy reach and height adjustability, while delivering functional support and stylish appeal. Available in beautiful designer colors that are sure to complement any décor, our flexible work stations will stimulate and support the professional work attitude vital to mailcenter morale and productivity. Backed by a lifetime warranty, FP furniture is high-performance efficiency in a class by itself.

Mail Center Furniture

Modular Solutions for Mailcenter Efficiency

Meter Table

FP Meter Tables offer a professional appearance plus a functional scale platform and open or closed storage base. The adjustable shelving and sliding doors facilitate organization and convenience necessary for an active workplace. FP Meter Tables ship fully assembled for fast setup and easily relocate when necessary.

Adjustable Riser

Choose from a variety of desktop Risers to provide a work surface above the meter and keep the desktop unobstructed for maximum productivity and efficient use of space. Available up to four bins wide, FP Risers easily adjust height flexibility for ease of use and offer unlimited options and sizes for cabling and processing needs.

Hinged Door Table with Work Surface

Ideal for the Jetmail system, our heavy duty hinged-door table will easily convert any space into a productive work area. Shipped assembled, installation is quick and simple. FP hinged-door tables are available with range of standard interior components that include easy-to-change and adjust hanging files, shelves, dividers, drawers, doors and backs — all interchangeable on demand.

Sorters

Expand or change your workstations as needed with our fully-scalable sorters. FP Sorters are delivered with a built-in mounting base that will attach to any surface to instantly create workstations organized to meet your specific needs. The flexible bins will accommodate flat sort trays or vertical dividers, readily adapting to your preferred mail-sorting or document management system. Modular backs come solid or transparent to improve visibility and are easy to re-adjust whenever needed. Plus, the easy, effective color-coding system will ensure maximum speed and sort accuracy.

Modular Systems

With these truly modular mail and document systems, FP offers a furniture solution that will fit even our largest FP meter. With such a wide range of options, it is easy to configure the exact components you will need to fit your environment and your budget. Backed by a lifetime warranty, FP Mail Center furniture provides unlimited flexibility in stylish designs that will complement any décor, while creating an efficient document and mail station solution customized for your workplace.

Productivity flows from organized copy/mail stations
